

NEW A-dec 300 Continental Whips

Ultimate Flexibility

Ultra-flexible Continental whips are now available on A-dec 300 delivery systems. Available on new orders or as a retrofit kit on existing Continental or Traditional A-dec 300 delivery units.

ERGONOMIC COMFORT

Handpieces—even electrics—feel light. Eliminates pull-back on the handpiece resulting in less fatigue. Easily retrieve and return handpieces and other instruments without taking your focus away from the oral cavity.

PERFECT PROXIMITY

Everything you need is easy to position and comfortably within reach. Get comfortable access to your handpieces, ultrasonic instrument, curing light, and intraoral camera.

EXTENDED REACH, FLEXIBLE TUBING

Sturdy, lightweight tubing retains integrity for easy cleaning over time. Longer instrument tubing reduces in-procedure resistance and fatigue.

BALANCED STABILITY

Arms balance tubing weight so that you can effortlessly move handpieces without tugging or fatiguing your wrists.

Contact your local Territory Manager for more information.
